

IN THE SUBSTITUTE SPECIFICATION:

In the substitute specification the title at page 1, line 4 has been corrected as follows:

~~SIMPLE ADJUSTMENT~~ GRAPHICAL REPRESENTATION OF SETTING VALUES OF PRINTING IMAGE AND MACHINE PARAMETERS FOR AN ELECTROPHOTOGRAPHIC PRINTER OR COPIER.

In the substitute specification, page 3, the paragraph beginning at line 25 is corrected as follows:

For the purposes of promoting an understanding of the principles of the invention, reference will now be made to the preferred embodiment illustrated in the drawings and specific language will be used to describe the same. It will nevertheless be understood that no limitation of the scope of the invention is thereby intended, such alterations and further modifications in the illustrated device, and/or method, and such further applications of the principles of the invention as illustrated therein being contemplated as would normally occur ~~now or in the future~~ to one skilled in the art to which the invention relates.

In the substitute specification page 12, the paragraph beginning at line 29 is corrected as follows:

The register cards 108 and ~~400~~ 110 that concern the printers 2 and 3 in other user interfaces (such as, for example, in the user interface for adjustment of the print quality according to Figure 2) cannot be activated in the user interface for adjustment of the control marker position. Given adjustment of the control marker position for printer 1, a marker detection is respectively, automatically activated in the printer 2 and in the printer 3 when an input field 112 (what is known as a check box) is activated. The horizontal position is changed with the aid of graphical function keys

114 and 116 and the vertical position is changed with the aid of the function keys 118, 120 in preset steps given an activation of these function keys 114, 116. The limit values of the position are contained on the function keys 114, 116.

At substitute specification page 15, the paragraph beginning at line 1 is corrected as follows:

Although preferred exemplary embodiments are shown and described in detail in the drawings and in the preceding specification, these should be viewed as purely exemplary and not as limiting the invention. It is noted that only preferred exemplary embodiments are shown and described, and all variations and modifications that ~~presently and in the future~~ lie within the scope of protection of the invention should be protected.
